EXAMINER'S AMENDMENT

An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephen J. Weyer on 4 November 2009.

The application has been amended as follows:

- a. In claim 17, line 7, delete [, and preferably between 1.2 and 2.1] after "3:1" .
- b. In claim 21, line 12, delete [making use of] after "A method" and substitute therefor --comprising encapsulating chemical compounds by mixing--;
- c. In claim 21, lines 12-13, delete [for achieving encapsulation of] after "claim 1" and substitute therefor ---with---;
- d. In claim 21, line 13, after "chemical compounds" insert ---, thereby encapsulating the chemical compounds---;
- e. In claim 22, line 14, delete [making use of the composition] after "A method" and substitute therefor ---for progressive release of a compound comprising introducing the particles---;
- f. In claim 22, lines 14-15, delete [for achieving] after "claim 12" and substitute therefor ---into a medium, resulting in---;
- g. In claim 23, line 18, delete [making use of] after "A method" and substitute therefor --for delivering---

- h. In claim 23, line 18, delete [where the] after “claim 15,” and substitute therefor ---comprising delivering the composition containing---;
- i. In claim 23, line 19, delete [is] after “compound (C),” and substitute therefor ---being--
-;
- j. In claim 23, line 19, delete [for the manufacture] after “medicament,”;
- k. In claim 23, line 20, delete [intended to deliver] after “pharmaceutical composition,” and substitute therefor ---to a mucous membrane, thereby resulting in---;
- l. In claim 23, line 21, delete [at the level of a given] before “mucous membrane.” and insert ---to the---, after “manner”;
- m. In claim 24, line 1, delete [obtainable] after “A composition” and substitute therefor -
--obtained---;
- n. Claim 25 is newly added ---The method of claim 17, wherein the polysaccharide macromolecules (B) introduced is between 1:2 and 2:1.---

The following is an Examiner's statement of reasons for allowance: The closest prior art of Amiel et al. (*Stimuli-Responsive Water Soluble and Amphiphilic Polymers -- ACS Symposium Series; Chapter 4: "Macromolecular Assemblies Generated by Inclusion Complexes between Amphiphilic Polymers and β -Cyclodextrin Polymers in Aqueous Media"*) disclose aggregate gel compounds that are composed of guest-host inclusion complexes. The guest-host inclusion complexes comprise aliphatically modified polysaccharide molecules (e.g. guests) which are complexed within β -cyclodextrin molecules (e.g. hosts), the resulting particle of which becomes insoluble in aqueous medium. The aggregates are formed through polymerization of the guest-

host inclusion complexes. However, the compositions of the instant application have been clearly distinguished from those made of record in the prior art, as Amiel does not teach 1.) the formation of nano-scaled particles rather than gel-aggregates, 2.) the size range of any formed aggregates, and 3.) wherein at least 80% by mass of the compounds (A) and (B) present in the composition are contained in the particles. Since Applicants have distinguished over the art of record, the rejection of claims 1-10, 12-15 and 24 under 35 USC 103(a) as being unpatentable over the aforementioned Amiel et al. reference, which is presently still of record, **now stands withdrawn.**

Regarding the outstanding rejections under 35 USC 112, first and second paragraphs, Applicants' amendments discussed during the interview of 26 August 2009, are sufficient enough to overcome the rejections made to claims 1-10, 12-15 and 24.

Thus, the claimed invention is novel and unobvious over the prior art of the record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey T. Palenik whose telephone number is (571)270-1966. The examiner can normally be reached on 7:30 am - 5:00 pm; M-F (EST).
